TANNER RESEARCH EXPANDS IN MOVE TO MONROVIA LOCATION

MONROVIA, Calif., Jan. 17, 2006 – Tanner Research, named one of the region’s “Fast 50” fastest growing technology companies by Deloitte and Touche, today announced its move to larger headquarters to accommodate its growth in sales and staff. The company will relocate its corporate headquarters from its Pasadena location to more than 21,000 square feet near the Old Town district of Monrovia, while retaining in Pasadena its R&D facility for manufacturing micromachines.

The company has purchased the building in the 800 block of South Myrtle Avenue and will occupy all of the space. The purchase was brokered by Shadd Walker of Colliers Seeley International Inc.

“The continued strength of the worldwide technology market sector has fueled the growth of Tanner Research and its divisions, which provide software products, electronic products and design services for some of the world’s most complex and diverse systems,” noted Dr. John Tanner, president and CEO, Tanner Research. “The Monrovia space gives our employees a convenient and comfortable location from which to conduct their leading-edge product development and research activities and demonstrates our continued commitment to the Southern California technology economy.”

Tanner Research, which has four divisions, provides electronic design automation (EDA) software tools, consulting and engineering services for integrated circuits, manufacturing services for integrated circuits, and advanced technology research with focus areas in image processing and micromachine design. Customers include the Jet Propulsion Laboratory, Microsoft, IBM, Intel, NEC, Ricoh Company, Xerox, British Aerospace, the U.S. Department of Defense, CSR plc and many others. Its tools and resulting products are used in PCs, cellphones, imaging systems, peripherals and other applications.

The company’s new address is 825 South Myrtle Avenue, Monrovia, Calif. 91016-3424 U.S.A. Phone: +1-626-471-9700, fax: +1-626-471-9800, email salesw@tanner.com.

Tanner Research is privately held. More information is at www.tanner.com.
